Unaudited semi-annual report

for the period from 1 January 2022 to 30 June 2022

THIS TRANSLATION IS INTENDED FOR CONVENIENCE PURPOSES ONLY AND
SOLELY THE GERMAN VERSION IS BINDING

The prospectus and the management regulations are only valid in conjunction with the most recent annual report and, if the reporting date of the latter is more than eight months ago, also with the most recent semi-annual report.

The prospectus, the KIID (Key Investor Information Document) and the respective annual and semi-annual reports are available free of charge at the registered office of the management company, the custodian and at the paying agents, the information agents and the distributors.

A list of changes in securities assets is freely available upon request by unitholders at the registered office of the management company and the German paying and information agent as well as the distributor.

Lupus alpha Fonds and its sub-funds are authorised for public distribution in the Federal Republic of Germany and the Republic of Austria.

Note:

The components of the annual report comply with the requirements of art. 151 para. 3 with reference to chapters I to IV of schedule B of the law of 17 December 2010.

The consolidated statement of net assets and the consolidated profit and loss account as well as the consolidated development of the fund's assets result from the total sum of the respective values of all sub-funds. Cross-fund investments (where a sub-fund has invested in another sub-fund of the fund) and the related cross-fund accounts/balances have not been eliminated for the purposes of presenting the consolidated results. As of 30 June 2021, cross-fund investments represented 0.18 per cent of consolidated net assets.

For calculation reasons, rounding differences may occur in the percentages.

Notes to the semi-annual report (as of 30 June 2022)

Note 1 - General

Lupus alpha Fonds ("the fund") was launched on the initiative of Lupus alpha Investment S.A. (liquidated).

Lupus alpha Fonds was transferred to Lupus alpha Investment GmbH, registered office Speicherstraße 49-51, D-60327 Frankfurt am Main, with effect from 1 January 2020.

The fund was first established as an investment fund (fonds commun de placement) pursuant to Part 1 of the Luxembourg Law of 30 March 1988 on Undertakings for Collective Investment ("the Law of 30 March 1988") by Lupus alpha Investment S.A. (liquidated) on 13 December 2000. On 1 July 2011, the fund was adapted to the Luxembourg Law of 17 December 2010, Part I on Undertakings for Collective Investment ("the Law of 17 December 2010"). It offers investors the opportunity to become co-owners of a special fund under Luxembourg law.

The fund is managed by Lupus alpha Investment GmbH in accordance with the fund's management regulations, which form an integral part of the prospectus. The management regulations were first published in the Mémorial C, Recueil des Sociétés et Associations ("Mémorial") on 25 January 2001. Changes to the management regulations last entered into force on 1 January 2020 and have been filed with the Trade and Companies Register in Luxembourg. A reference to this filing was published in RESA ("Recueil électronique des sociétés et associations") on 26 November 2019.

The management company was founded on 15 July 2001 as Lupus alpha Investment GmbH (formerly Lupus alpha Kapitalanlagegesellschaft mbH), registered office Speicherstraße 49-51, D-60327 Frankfurt am Main, Germany.

The management company has the legal form of a Private Limited Company (GmbH), has a permit as a management company according to the German Capital Investment Code (KAGB).

The management company has appointed Lupus alpha Asset Management AG, (the "fund manager") to manage Lupus alpha Fonds. Remuneration paid to the fund manager is described in the management regulations under § 15 "fund charges".

Lupus alpha Asset Management AG, Speicherstraße 49-51, D-60327 Frankfurt am Main, Germany, is an investment company under German law and is active in the field of asset management, investment advice, fund management and investments. Lupus alpha Asset Management AG was founded on 9 August 1996 and is registered in the Frankfurt commercial register under the number HRB-90649. The company's share capital as well as its equity capital according to § 10 of the German Banking Act (Kreditwesengesetz) amounted to 500,000 EUR on 31 December 2006. The share capital was fully subscribed and paid in.

The fund is a legally dependent joint asset of all unitholders which is managed by the management company in its own name but for the account of the unitholders. In doing so, the management company invests the deposited money in its own name for the collective account of the unitholders, observing the principle of risk spreading. The money deposited and the assets acquired with it form the fund assets, which are managed separately by the management company. The unitholders participate in the fund assets in the amount of their units.

Notes to the semi-annual report (as of 30 June 2022)

Note 1 - General (continued)

The following sub-funds are currently offered to investors under one and the same fund:

- Lupus alpha Fonds - Lupus alpha Sustainable Smaller Euro Champions

The objective of the investment policy is to achieve the highest possible growth in value. At least 51 per cent of the value of the sub-fund is invested in small and medium-sized European companies (small and mid caps), such as those in the EURO STOXX® TMI Small EUR Net Return Index (an index of STOXX Limited, Zurich), which are admitted to official trading on a stock exchange or admitted to or included in another organised market and which are not units in investment funds. Due to investment policy interests, European large caps which are admitted to official trading on a stock exchange or admitted to or included in another organised market and which are not units in investment funds may also be taken into account.

The sub-fund promotes environmental and/or social features but does not target sustainable investments. The sub-fund considers risks related to sustainability when making investment decisions. The fund manager examines the ESG risks arising for the sub-fund, taking into account the various requirements of the sub-fund's investment policy. Sustainability risks may have a significant impact on the value of the fund's investments in the medium to long term. As deterioration in ESG scores as well as emerging controversies surrounding target companies in which the sub-fund invests may already have a negative impact on a sub-fund investment in the short or medium term, the fund manager pays particular attention to these ESG criteria and changes over time. The sub-fund's assets are only invested in convertible bonds that are selected according to the principles of sustainability. To this end, issuers are analysed and classified according to environmental, social and governance criteria. This includes, among other things, the issuers' environmental management, their social standards and corporate governance, as well as their product portfolio. This may lead to the exclusion of companies from certain sectors (such as controversial weapons, fossil fuels, and nuclear energy). Likewise, investments should not be made in companies that violate human and labour rights or that are involved in corruption. In addition, companies may be selected through the sustainability analysis depending on the contribution they make to the fulfilment of the Sustainable Development Goals of the United Nations.

The management company has decided to issue different unit classes for the sub-fund. Investors therefore have a choice between unit classes "A" and "C". The investment policy of both unit classes is identical to that of the sub-fund as a whole, the only differences being the charges incurred for these unit classes and the minimum investment amount.

Units in the sub-fund will be issued in distributing form only for both unit classes. Capital gains, other income and interest not intended to cover costs, dividends and income from lending and repurchase transactions may be used for distribution.

Note 1 - General (continued)

- Lupus alpha Fonds - Lupus alpha Smaller German Champions

The objective of the investment policy is to achieve the highest possible growth in value. At least 51 per cent of the value of the sub-fund is invested in small and medium-sized European companies (small and mid caps), such as those in the MDAX® Performance-Index or the SDAX® Performance-Index, as well as in stocks of the Technology All Share Index (indices of Deutsche Börse AG), which are admitted to official trading on a stock exchange or admitted to or included in another organised market and which are not units in investment funds. Due to investment policy interests, European large caps equities which are admitted to official trading on a stock exchange or admitted to, or included in, another organised market and which are not units in investment funds may also be taken into account.

The sub-fund considers risks related to sustainability when making investment decisions. The fund manager examines the ESG risks arising for the sub-fund taking into account the various requirements of the sub-fund's investment policy. In this process, securities or their issuers are analysed for sustainability risks using ESG criteria before any investment decision is made. ESG information and ESG criteria are taken into account for investment decisions, but are not decisive, so that the fund management may invest in securities and issuers that do not follow ESG criteria.

The investments underlying this sub-fund do not take into account the EU criteria for environmentally sustainable economic activities.

The management company has decided to issue different unit classes for the sub-fund. Investors therefore have a choice between unit classes "A", "C", "CT" and "CAV". The investment policy of the unit classes is identical to that of the sub-fund as a whole, the only differences being the charges incurred for these unit classes and the minimum investment amount.

Units in the sub-fund will be issued in distributing and accumulating form. Capital gains, other income and interest not intended to cover costs, dividends and income from lending and repurchase transactions may be used for distribution.

- Lupus alpha Fonds - Lupus alpha Micro Champions

The objective of the investment policy is to achieve the highest possible growth in value. At least 51 per cent of the value of the sub-fund is invested in European small and mid cap stocks (market capitalisation of approx. from EUR 10m to EUR 3billion), which are admitted to official trading on a stock exchange or admitted to or included in another organised market and which are not units in investment funds. Due to investment policy interests, investments may also be made in European large caps that are admitted to official trading on a stock exchange or admitted to or included in another organised market and which are not units in investment funds.

The sub-fund considers risks related to sustainability when making investment decisions. The fund manager examines the ESG risks arising for the sub-fund, taking into account the various requirements of the sub-fund's investment policy. In this process, securities or their issuers are analysed for sustainability risks using ESG criteria before any investment decision is made. ESG information and ESG criteria are taken into account for investment decisions, but are not decisive, so that the fund management may invest in securities and issuers that do not follow ESG criteria.

Note 1 - General (continued)

The investments underlying this sub-fund do not take into account the EU criteria for environmentally sustainable economic activities.

The investment policy of the unit classes is identical to that of the sub-fund as a whole, the only differences being the charges incurred for these unit classes and the minimum investment amount.

Units in the sub-fund will be issued in distributing form only. Capital gains, other income and interest not intended to cover costs, dividends and income from lending and repurchase transactions may be used for distribution.

- Lupus alpha Fonds - Lupus alpha All Opportunities fund

The objective of the investment policy is to achieve the highest possible growth in value. To this end, the sub-fund's assets are invested primarily in international small and mid cap equities, fixed and floating rate securities including zero bonds, participatory notes and convertible bonds and bonds with warrants. The sub-fund's investments may at times have certain sector, country and industry-specific focuses in the interests of the investors.

In addition, the sub-fund may hold bank deposits and cash and cash equivalents.

Investments below a speculative grade (e.g., B- according to Standard and Poor's and Fitch or B3 according to Moody's) are not permitted.

Units in other UCITS and/or other UCIs pursuant to § 7 (2) of the management regulations may be acquired for the sub-fund for up to 10 per cent of its assets.

Long/short strategies may be entered into with the help of derivatives in order to exploit the relative overvaluation or undervaluation of individual stocks against each other or against indices. The aim is to generate additional income primarily through the use of equity, portfolio or index swaps as well as futures and forwards. Derivative positions built up by means of supplementary strategies do not have to be market neutral. Synthetic short positions built up as part of the swap strategies should not normally exceed 50 per cent of the fund's assets. The exposure from a swap in this context corresponds to the daily determined value of the net positions of the swap. Net amounts owed to the swap counterparty but not yet paid must be covered by liquid assets or securities.

The sub-fund considers risks related to sustainability when making investment decisions. The fund manager examines the sustainability risks arising for the fund, taking into account the various requirements of the sub-fund's investment policy. In this process, securities or their issuers are analysed for sustainability risks using ESG criteria before any investment decision is made. ESG information and ESG criteria are taken into account for investment decisions, but are not decisive, so that the fund management may invest in securities and issuers that do not follow ESG criteria.

The investments underlying this sub-fund do not take into account the EU criteria for environmentally sustainable economic activities.

- Lupus alpha Fonds - Lupus alpha Global Convertible Bonds

The objective of the investment policy is to achieve the highest possible growth in value. The sub-fund's assets may be invested entirely in securities, whereby at least 51 per cent of the sub-fund's assets must be invested in convertible bonds.

To this end, the sub-fund's assets are invested in fixed and floating-rate securities, convertible bonds and bonds with warrants giving rights to securities, warrants, other fixed-income securities (including zero bonds), money market instruments and equities. Convertible bonds also include exchangeables, mandatory convertibles and warrant bonds (with options relating to securities).

In addition, the sub-fund may hold up to 49 per cent of its assets in money market instruments, bank deposits and cash and cash equivalents.

Investments below a speculative grade (e.g., B- according to Standard and Poor's and Fitch or B3 according to Moody's) are not permitted.

The derivatives, techniques and instruments listed under § 7 and 8 of the management regulations, such as futures, options and swaps, may be used for both hedging and investment purposes. However, the sub-fund's investment objectives as stated in the management regulations or the prospectus may not be changed, nor may the fundamental character of the sub-fund's investment policy.

The sub-fund considers risks related to sustainability when making investment decisions. The fund manager examines the ESG risks arising for the sub-fund, taking into account the various requirements of the sub-fund's investment policy. In this process, securities or their issuers are analysed for sustainability risks using ESG criteria before any investment decision is made. ESG information and ESG criteria are taken into account for investment decisions, but are not decisive, so that the fund management may invest in securities and issuers that do not follow ESG criteria.

The investments underlying this sub-fund do not take into account the EU criteria for environmentally sustainable economic activities.

C hedged and A hedged unit classes are currently issued under this sub-fund.

Units in the sub-fund are currently issued in distributing form only. Capital gains, other income and interest not intended to cover costs, dividends and income from lending and repurchase transactions may be used for distribution.

Notes to the semi-annual report (as of 30 June 2022)

Note 1 - General (continued)

Units in other UCITS and/or other UCIs pursuant to § 7 (2) of the management regulations may be acquired for the sub-fund for up to 10 per cent of its assets.

Units in the sub-fund will be issued in distributing form only. Capital gains, other income and interest not intended to cover costs, dividends and income from lending and repurchase transactions may be used for distribution.

Note 2 – Summary of significant accounting policies

a) Calculation of net asset value

The fund currency ("fund currency") is the Euro.

The fund's financial statements are prepared in accordance with Luxembourg legal requirements, regulations governing collective investment undertakings and in accordance with the going concern principle.

The value of each unit ("net asset value" or also "unit value") shall be stated in the currency of the respective sub-fund and calculated under the supervision of the custodian by the management company or a third party appointed by it on the valuation date ("valuation date") of the respective sub-fund specified in the specific section of the prospectus at least twice each month. If a valuation date does not fall on a banking day in Luxembourg and/or Frankfurt am Main, the net asset value will be calculated on the next banking day in Luxembourg and Frankfurt am Main, Germany.

The net asset value is calculated by dividing the net assets of the respective sub-fund (fund assets less liabilities of the sub-fund) by the number of units of this sub-fund in circulation on the valuation date.

If different unit classes are issued within a sub-fund, the net asset value of each such unit class is calculated by dividing the net assets of this unit class by the number of units of this unit class in circulation on the valuation date.

The fund's total net assets ("net fund assets") consist of the sum of the net assets of the respective sub-funds and are expressed in euros ("the fund currency").

b) Valuation of securities holdings

The net assets of a sub-fund shall be calculated in accordance with the following principles:

- (a) The valuation of all transferable securities and money market instruments admitted to official listing or to another regulated market which operates regularly and is recognised and open to the public shall be made at the last available price and, if the security or money market instrument concerned is traded on several markets, on the basis of the last known price of the principal market for that security or money market instrument.

Notes to the semi-annual report (as of 30 June 2022)

Note 2 – Summary of significant accounting policies (continued)

(b) Securities and money market instruments that are neither officially listed on a stock exchange nor traded on another regulated market are valued, like all other legally permissible assets, at the respective market value as determined by the management company in good faith and in accordance with generally recognised valuation rules that may be verified by auditors. This also applies to the securities listed under (a) if their respective prices are not in line with the market.

(c) Cash and cash equivalents are valued at their nominal value plus interest.

(d) Fixed-term deposits may be valued at the yield rate provided that a corresponding agreement has been entered into between the management company and the counterparty, according to which the fixed-term deposits may be terminated at any time and the yield rate corresponds to the realisable value.

(e) Investment units are valued at the last determined and available redemption price.

(f) Financial futures contracts on securities, interest rates, indices, foreign exchange and other permissible financial instruments are valued at the last known prices on the relevant exchanges on the valuation date, provided they are listed on an exchange. If there is no stock exchange listing (primarily in the case of OTC transactions), the valuation is based on the probable realisable value, which is to be determined with caution and in good faith.

(g) Options are generally valued at the last known prices of the relevant stock exchanges or broker prices on the valuation date. If a valuation date is also the settlement date of an option, the corresponding option shall be valued at its respective final settlement price ("settlement price").

(h) Claims for repayment in respect of loans are valued on the basis of the market price of the assets transferred under the lending transaction in each case.

(i) The pro rata interest accruing on securities is included insofar as it is not expressed in the market value.

(j) All assets denominated in a currency other than the currency of the relevant sub-fund will be converted into the currency of that sub-fund at the latest available mid-market exchange rate.

c) Conversion of foreign currencies

The market value of securities and other investments denominated in a currency other than the currency of the relevant sub-fund will be converted into the currency of the sub-fund at the latest mid-market exchange rate.

d) Net realised gain/loss from sales of securities

Gains or losses realised on sales of securities are calculated on the basis of the average cost price of the securities sold.

Notes to the semi-annual report (as of 30 June 2022)

Note 2 – Summary of significant accounting policies (continued)

e) Valuation of forward exchange transactions

The unrealised increase/decrease in value of outstanding forward exchange transactions is calculated and stated at the forward exchange rate on the valuation date and is included in the change in net assets.

Note 3 – Management and performance fees

1. The management company shall receive the following management fee for the management of the sub-fund Lupus alpha Sustainable Smaller Euro Champions:

(a) for units of unit class A a maximum of 1.50 per cent p.a. of the applicable net asset value.

(b) for units of unit class C a maximum of 1.00 per cent p.a. of the applicable net asset value.

The management fee is calculated on each valuation date, set aside in the investment fund and paid out at the end of each month.

The management company may pass on parts of its management remuneration to intermediary bodies. The amount of this remuneration is assessed as a rule depending on the brokered fund volume.

In addition, if the sub-fund's net assets perform positively during a fiscal year ("the accounting period"), the fund manager will receive a performance fee ("the outperformance fee") of the amount by which such performance exceeds that of the benchmark index EURO STOXX® TMI Small EUR Net Return (an index of Stoxx Limited, Zürich).

If the net assets of the sub-fund perform negatively during the accounting period, the fund manager will not receive a performance fee. Any negative performance relative to the benchmark index will be carried forward to the following accounting period. Payment of the performance fee is only possible again after this negative carry-forward has been offset. This shall include any underperformance amount from the five preceding accounting periods.

(a) For units of unit class A the performance fee is 17.50 per cent of the outperformance.

(b) For units of unit class C the performance fee is 12.50 per cent of the outperformance.

In accordance with the result of a daily comparison, an arithmetically accrued performance fee shall be set aside in the special fund per unit issued or a provision already booked shall be released accordingly. Released provisions shall accrue to the sub-fund. A performance fee may only be withdrawn if corresponding provisions have been formed.

In the event of underperformance of the benchmark, the performance fee may be withdrawn if the unit value at the end of the accounting period is below the unit value of the beginning of the accounting period ("negative unit value performance").

The management company may pass on parts of its management remuneration to intermediary bodies. The amount of this remuneration is assessed as a rule depending on the brokered fund volume.

In addition, the fund manager will receive a performance fee of 10 percent of the amount by which the sub-fund's net asset value outperforms the benchmark index Refinitiv Global Focus Convertible Bonds Hedged (EUR) Index (an index of Refinitiv Inc., New York) during a fiscal year ("the accounting period"). Any negative performance relative to the benchmark index will be carried forward to the following accounting period. Payment of the performance fee is only possible again after this negative carry-forward has been offset. This shall include any underperformance amount from the five preceding accounting periods.

In accordance with the result of a daily comparison, an arithmetically accrued performance fee shall be set aside in the special fund per unit issued or a provision already booked shall be released accordingly. Released provisions shall accrue to the sub-fund. A performance fee may only be withdrawn if corresponding provisions have been formed.

In the event of underperformance of the benchmark, the performance fee may be withdrawn if the unit value at the end of the accounting period is below the unit value of the beginning of the accounting period ("negative unit value performance").

Notes to the semi-annual report (as of 30 June 2022)

Note 4 - Subscription tax and Savings Directive

(a) Tax treatment of the fund

The fund's assets shall be subject in the Grand Duchy of Luxembourg to a quarterly tax d'abonnement ("subscription tax") of 0.05 per cent p.a. of the net fund assets reported at the end of the quarter.

With the exception of a one-off tax of EUR 1,250, which was paid when the fund was established, income from the investment of the fund's assets is not subject to taxation in Luxembourg; it may, however, be subject to any withholding taxes in countries in which the fund's assets are invested. Neither the management company nor the custodian will obtain receipts for such withholding taxes individually or for all unitholders.

The above information is based on the current legal situation and administrative practice and is subject to change.

(b) Tax treatment of unitholders – Savings Directive

The law of 21 June 2005 (the "law") transposed Council Directive 2003/48/EC on taxation of savings income in the form of interest payments (the "Savings Directive") into Luxembourg law.

The Savings Directive aims to ensure that interest payments from debt claims ("savings income") in one member state of the European Union ("member state") to individuals ("beneficial owners") resident in another member state are effectively taxed. For example, under the Savings Directive, member states are obliged to provide the competent authorities in the beneficial owner's member state with certain minimum information on interest income as well as on the identity of the beneficial owner ("exchange of information"). The exceptions are Austria, Belgium and Luxembourg, which will levy withholding taxes on this interest income for a transitional period.

Other countries, including Switzerland, dependent or associated territories of EU member states, the principalities of Monaco, Liechtenstein and Andorra, as well as the Republic of San Marino, have also taken similar measures with the exchange of information or withholding tax.

In Luxembourg, the law provides for the levying of a withholding tax, which will be increased in three steps from initially 15 per cent (1 July 2005 to 30 June 2008) to 20 per cent (1 July 2008 to 30 June 2011) and finally to 35 per cent (as of 1 July 2011).

However, § 9 of the law stipulates that no withholding tax is withheld provided that the beneficial owner authorises the paying agent in writing to pass on information as part of the exchange of information.

Dividends paid out by the sub-fund fall within the scope of the Savings Directive if more than 15 per cent of the assets of the relevant portfolio are invested in debt claims (for definition see the law). The Savings Directive applies to redemption proceeds received by a unitholder on redemption of units where more than 40 per cent of the relevant sub-fund's assets are invested in debt claims.

If the applicant provides the management company with incomplete and insufficient information as required by law, the management company shall be entitled to reject any application for units.

Note 5 – Subsequent events

Ukraine crisis

The measures adopted worldwide as a result of the invasion of Ukraine by Russian army, including the exclusion of Russia from the SWIFT system and further far-reaching sanctions against the Russian economy, led to significant price losses especially on European stock exchanges. In the medium term, global economic conditions and the financial markets will be characterised by a higher level of uncertainty, accompanied by increased volatility in financial marketplaces. In this respect, the fund's future performance is also subject to increased fluctuation risks. The management company will continue to take all measures deemed appropriate to protect investor interests as best possible.

There were no other significant changes after the reporting date and no other significant events.

Note 6 - Disclosures pursuant to Regulation (EU) 2015/2365 on transparency of securities financing transactions (SFTR) and of reuse and amending Regulation (EU) No 648/2012 - Disclosure according to § A.

In the reporting period, there were no securities financing transactions pursuant to the above-mentioned legal provision.
